UBT1000

Bluetooth™ Wireless USB Adapter

INTRODUCTION

The Bluetooth™ Wireless USB Adapter specifically designed to plug into an available Universal Serial Bus port connecting to a desktop or laptop PC. It allows you to make short-range wireless connections between Bluetooth devices such as cellular phones, personal digital assistants (PDA), and desktop and notebook computers.

The Bluetooth™ Wireless USB Adapter uses radio transmission, voice and data are transmitted almost immediately. Bluetooth™ transmission ensures both protection from interference and secure data transfers. It helps people share and access the information that's important to them more easily.

Link your notebook with your handheld, mobile phone, printer and other Bluetooth™ devices within your personal area network (PAN) via a secure short-range wireless radio link. Get rid of all those troublesome cables and automatically share documents, browse the internet and synchronize calendars, address books and more.

FEATURE

- Uses 2.4 GHz ISM frequency band.
- High-speed Wireless Transmissions, up to 721 Kbps Data Throughput.
- Enable wireless connectivity between a notebook computer and a cellular phone.
- Connections within ranges up to 32 feet (10 meters).
- Provides a high degree of security for communications between Bluetooth devices.
- Connect with Bluetooth devices outside your PAN to quickly and easily share data, files and information with a friend or co-worker
- Synchronize devices in your Personal Area Network to keep your data consistent.
- Ease of use.
- Plug and play installation in Windows98 / 2000 / ME / XP

SPECIFICATION

Interface	USB1.1
Frequency Band	2400-2483.5 MHz
Data Rates	Up to 721 Kbps
Security	Data encryption up to 128-bits Frequency hopping spread spectrum
Typical Range	Devices connect for access and data sharing within ranges up to 32 feet (10 meters)
Topology	8 devices point-to-multipoint
LED Indicator	Power: Orange LED
Supported OS	Windows98/2000/ME/XP
